Title : Need to take remedial action to protect and preserve drinking water resource in Sansthankotta fresh water lake in Kerala.

SHRI P. RAJENDRAN (QUILON): Thank you, Sir, for giving me this opportunity. I wish to draw the attention of the Government, through this august House, to a very important matter.

Sansthankotta fresh water lake is one of the important fresh water resources in India, approved under the Ramsor Wetland category in the Ramsor Convention. Also, this Scheme would come under the drinking water projects of the country. The depth of the lake was more than 35.4 metres; now, it is only 14.5 metres. This lake is pumping 350 lakh litres of water to the Quilon Corporation area and the local panchayats. Now, the lake is facing very serious threats from all around that it might even ultimately reach the level of perishing of drinking water in the lake. The State Government is doing nothing to protect this important lake. So, I would request the Government, through you, to cause suitable emergent remedial action to protect and preserve this drinking water resource of the country, Sansthankotta fresh water lake.

MR. CHAIRMAN : The House now stands adjourned to meet again tomorrow, December 14, 2005 at 11 a.m.

-

18.51 hrs.

The Lok Sabha then adjourned till Eleven of the Clock

on[r72] Wednesday, December 14, 2005/Agrahayana 23, 1927 (Saka).
